

Name: \_\_\_\_\_ Period: \_\_\_\_\_

To find your exact location on a map, you need to determine which latitude line and which longitude line meet where you are standing. When writing locations, the latitude is given first. Miami, Florida then, has a location of 25<sup>o</sup> North and 80<sup>o</sup> West. This is usually written in a short form as 25<sup>o</sup> N 80<sup>o</sup> W. Give the latitude and longitude of the shapes positioned on the grid below.

Viking Ship \_\_\_\_\_  
 Hurricane \_\_\_\_\_  
 Tourist \_\_\_\_\_  
 Flying Bird \_\_\_\_\_

Canoe \_\_\_\_\_  
 Whale \_\_\_\_\_  
 Raft \_\_\_\_\_
