World Latitude & Longitude Practice

Your parents have planned a surprise world trip for you! You will be visiting seven different countries over Christmas vacation, but your parents won't tell you which ones. After you beg and plead for a while, they finally agree to give you hints. They give you a list of latitude and longitude coordinates. Thanks a lot, Mom!

See if you can figure out which seven countries they're sending you to, using the map below. The coordinates are listed after the map. If you don't know which country you landed in, you may have to compare this outline map to the one in your book on pp. A4-A5.

Your Surprise World Trip:

Continent #1: _____ 40°N, 0°

Continent #2: _____ 40°N, 40°E

Continent #3: _____ 20° N, 80°E

Continent #4: _____ 20°S, 140°E

Continent #5: _____ 80°S, 140°W

Continent #6: _____ 20°S, 60°W

Continent #7: _____ 0°, 60°W
